CHILD SAFEGUARDING POLICY STATEMENT

We believe that every child has the right to develop to their full potential. Promoting and safeguarding the welfare of children will always take priority.

If we are worried about the safety or welfare of a child using our kindergarten, we have a legal duty and responsibility to act on our concerns. We will discuss our concerns with parents and carers in the first instance and if necessary, make a referral to Richmond Social Services.

If you wish to discuss any aspect of child safeguarding, please speak with our Designated Safeguarding and Child Protection person.
